

KEVIN KYLE S. ALFON

INFORMATION TECHNOLOGY STUDENT

Pasay City, Philippines | (+63) 969-141-5404 | alfonkevinkylesoriano@gmail.com
LinkedIn: alfon-kevin-kyle-794634411 **GitHub:** KKFonsi **Portfolio:** alfon-portfolio.vercel.app

PROFESSIONAL SUMMARY

Information Technology student with hands-on experience in Android and web development, computer systems servicing, basic networking, technical support, and operating-system installation. Familiar with Windows and Ubuntu Linux, hardware and software troubleshooting, server-client setup, switches, routers, databases, and POS configuration. Uses AI-assisted and agentic development tools responsibly while personally reviewing, integrating, testing, and debugging generated work. Seeking an OJT or internship role in software development, IT support, networking, or systems administration.

TECHNICAL SKILLS

Programming: Java, Kotlin, C#, C, C++, Python, JavaScript, PHP, SQL

Web Development: HTML, CSS

Android Development: Android Studio, XML

Networking & Systems: Switches, routers, server-client setup, POS setup, OS installation, Windows, Ubuntu Linux

Agentic AI: Codex, Claude; AI-assisted workflow and prompt-guided implementation

IT Support: Hardware/software troubleshooting, desktop assembly/disassembly, technical documentation

CERTIFICATIONS

- TESDA Computer Systems Servicing NC II
- TESDA Visual Graphic Design NC III

SELECTED PROJECTS

Transity | Android Ride-Hailing System **Completed**

- Developed and refined customer, driver, and admin workflows including booking, trip history, applications, wallet and commission features, location handling, and real-time backend communication.
- Built through a vibe-coded, AI-assisted workflow using Codex and Claude, with personal responsibility for requirements, integration, testing, debugging, and final validation.

KitaTrack | Offline-First Personal Finance Tracker **Completed**

- Implemented budgeting, income and expense tracking, savings, debts, subscriptions, reports, backup/import, and home-widget workflows using Kotlin, XML, MVVM, Room, and repository architecture.

PUP Campus Creatives | Student Creative Portfolio Platform **UI/UX**

- Created a responsive React and TypeScript prototype for portfolios, artwork discovery, exhibitions, spotlight content, and moderator workflows, guided by survey findings and user needs.

EXPERIENCE

Work Immersion (100 Hours) | SmartPetro Inc. **May 2024 - Jun 2024**

- Performed basic hardware troubleshooting and practiced assembling and disassembling desktop computers.
- Downloaded, installed, and configured an operating system, then connected two computers and identified the client and server roles.
- Set up the server, connected it to the database, configured the POS on the client computer, and established communication between the client, server, database, and POS environment.
- Developed practical habits in careful listening, following technical instructions, asking questions when needed, documenting work, collaborating with others, and learning unfamiliar procedures.

EDUCATION

Diploma in Information Technology **2024 - Present**
Polytechnic University of the Philippines

TVL - Mobile Application and Web Development (MAWD) **2022 - 2024**
STI College Pasay-EDSA

PROFESSIONAL STRENGTHS

Active listener • Willing to learn • Adaptable • Detail-oriented • Responsible • Patient in troubleshooting • Able to follow instructions • Team-oriented • Time-conscious
